

Project Design Phase-I
Proposed Solution Template

Date	19 September 2022
Team ID	PNT2022TMID13305
Project Name	Project - Real time Communication System Powered by AI for Specially Abled
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	To address the challenges faced by deaf-mute persons in their daily life so they can interact with society and feel hopeful
2.	Idea / Solution description	To overcome this problem we have an idea that an application is created to communicate with normal people
3.	Novelty / Uniqueness	The person who is using sign language and convert it into the voice by analyzing the sign language
4.	Social Impact / Customer Satisfaction	Different able people feel free to express their Thoughts and communicate with normal people without pity feel
5.	Business Model (Revenue Model)	Here we give most of the basic features at free Cost but they have to pay if they need more advanced features
6.	Scalability of the Solution	It has very less complexity for the user. It would bring a new evolution in Real Time Communication System Powered by AI for Special Able with less time time and safe enough resource.
